Harney Partners & Kids and Families

PURPOSE AND GOALS

To provide a coalition to coordinate resources available to address the total well-being of children and families in Harney County. Identify and prioritize unmet needs, which can then receive community attention.

OBJECTIVES

To provide support to efforts that focus on children's concerns in Harney County.

To provide an ongoing opportunity for coordinating resources to children and families in Harney County, identify unmet needs and facilitate community efforts to meet those needs.

To develop and implement comprehensive, long-term strategies to reduce substance abuse among youth, and over time, among adults, on a sustained basis in Harney County.

To provide a comprehensive children's organization in Harney County that can join forces with the remainder of the state in support of children and families concerns.

VALUES

In order to realize their potential, children need to grow up in a safe and healthy home.

Parents are the primary resource for children. Grandparents, both natural and chosen, have the wisdom that enhances our families. Time is the most precious gift we give our children.

We believe in, and seek the unique contribution of, each member in our diverse community.

The best gift we give our community is knowing and caring for ourselves, our families and our neighbors.
